Don't miss out on the benefits of having a side hustle - read on and take action towards financial independence today!

## 1. Start a Ridesharing Gig

One of the most OBVIOUS ways to make money is by becoming an Uber driver.

Did you know Uber has about 93 million MONTHLY users?

About 1.44 billion rides are completed on Uber each QUARTER.

That means over \$26.6 BILLION dollars worth of Uber bookings a year.

Clearly, Uber is both popular and can be profitable.

Here's how you get paid:

- Tips
- Bonuses
- Flat fee for rides

Typically, you can earn up to \$50 per hour.

So in an average-sized city, you could earn about \$1,000 per week as a driver.

But, this number also heavily depends on:

- Your location
- The time of day
- The time of year

Becoming an Uber driver is actually pretty simple.

Here's how the process works:

1. Sign up to [Uber Driver](#)
2. Open the Uber app
3. Accept a ride offer
4. Pick up your customer
5. Drop off your customer

What I like most about Uber is that riders can rate drivers

AND drivers can rate riders.

## **2. Rent Out Your Space**

Do you have ANY free space in your house?

By free space I mean:

- A free garage space
- An empty guest room
- An empty desk drawer
- A free space on your front lawn

...Even an empty square foot of space in the corner of your room?

The answer is probably YES.

Thanks to the [Neighbor app](#), you can turn that empty space into CASH.

**Self storage**

**Car storage**

**RV storage**

**Boat storage**

**Trailer storage**

**Business inventory**

Seriously, this is one of the best passive income apps and you should download it now (it's free).

It doesn't even matter where you're located (as long as it's in the US).

Of course, if you're living in the top cities, then you'll probably make more money.

This app is a NO BRAINER.

Who wouldn't want to turn empty space that's collecting dust into a passive cash cow?

I know I would.

### **3. Deliver Food**

If you're looking to make money fast, then consider delivering food with apps like [DoorDash](#).

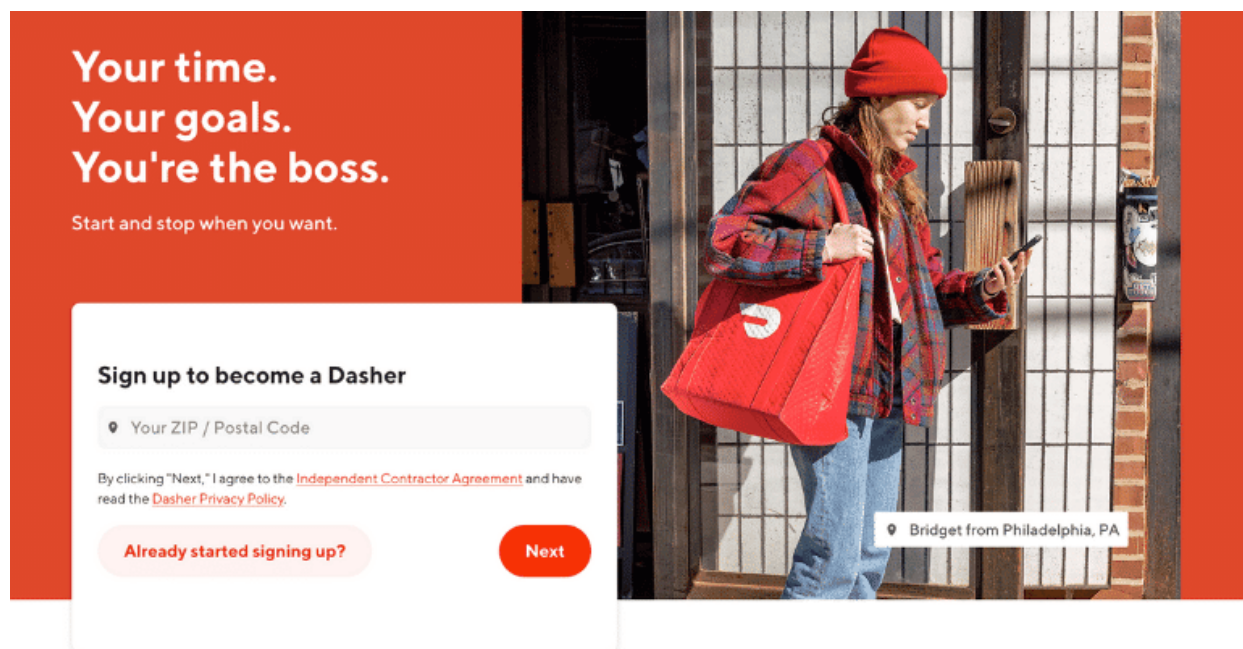

Here's what you'll need:

- Good car
- Valid driver's license
- Pass a background check

Here's how you earn money:

- Tips
- Flat fee
- Bonus pay

And you get to keep 100% of the tips that you make.

Depending on whether you use DoorDash or other food delivery apps like UberEats, you might even get access to “Peak Pay”.

**Pro Tip:** Peak Pay are bonus pay incentives to motivate drivers to make more deliveries.

The best part about delivering food?

You set your OWN schedule.

## 4. Walk Dogs or Pet Sit

If you want to make money and you LOVE dogs, then consider joining popular dog sitting apps like [Rover](#).

With Rover you can be with dogs (or cats) AND make money (sometimes up to \$1,000 a month!).

Here's where you make the most amount of money:

- You live in a city
- You have high ratings
- You offer multiple services

Rover is very popular in the United States.

But (and much to my surprise), the app is also available to places around the world like Italy and Sweden.

On average, you'll get paid \$20 per pet visit.

Here's how you're typically paid:

- Tips
- Flat fee

You can select which types of services you offer, ranging from dog boarding to dog walking:

# Services

## Boarding **HIGHEST EARNERS**

Care for a dog or cat overnight in your home. Sitters who offer boarding can **make up to 2x more** than sitters who don't.

## Dog Walking

Pick up dog walks that fit your schedule.

## Doggy Day Care

Ideal for work-from-home dog lovers.

## House Sitting, Drop-In Visits

Stay with or check up on pets in their own homes.

If you're just starting out on Rover, then I'd suggest that you first check out how much people are charging in your area.

**Pro Tip:** After each successful stay, ask your customer if they're willing to post a brief review and leave a rating.

The more reviews and ratings you get, the more money you can charge.

## 5. Make Money Through Social Media

Social media can change your life – for better or worse.

If you're already using social media, then why not try to leverage it to help you make money fast?!

I did, and I earned my first \$500 in less than a WEEK after applying the principles taught in [Create 24/7](#).

Create 24/7 is the guidebook I used to make money on Twitter and grow my Twitter audience from 4,000 to 200,000 in 2 years.

Here's how you can do it too:

- Find a social media platform you LOVE
- Find a niche you're passionate about
- Clean up your profile bio & picture
- Start creating AMAZING content

The key to building my following and making money is providing VALUABLE and CONSISTENT content.

If you do this for 12+ months, there is no way you cannot grow.

## 6. Become a Personal Grocery Shopper

If you're 18+ and want to make money, then consider joining Instacart.

Instacart is an app where you can become a personal shopper.

Here's what you would do:

- Accept a customer's order
- Shop for the orders
- Deliver the order

You could either become:

- An in-store shopper
- A full-service shopper

The difference is that a full-service shopper would also deliver orders.

As long as you can lift 50 pounds, you should be good to go.

The best part?

You can set your own schedule.

## **7. Rent Out Your RV**

Do you own an RV?

If yes, read this section.

You can make \$40,000+ passively per YEAR by renting out your RV on the app called [RVShare](#).

While owning an RV might be a great way to make family memories, you're probably not going to use your RV all day, every day.

There's a high chance that your RV will sit in the driveway.

Don't let your RV just sit there.

Instead, turn your RV into a cash cow and make 500 dollars fast by renting it out on RVShare.

RVShare is JUST like Airbnb or VRBO.

Here's what you do:

- List your RV
- Post pictures
- Connect with renters
- Collect the security deposit

Check out what others on RVShare charge customers PER NIGHT:

Some people have expressed they've made \$40,000+ in 1 year just by renting out their RV!

## 8. Rent Out Your Car

If you have an extra car and want to make money fast, then consider renting out your vehicle!

Your car is a depreciating asset anyway, right?

So why not get some extra bang for your buck while it's sitting in the garage collecting dust?

With popular car rental apps like Turo or HyreCar, you can:

- Snap some pics of your car
- Upload your car's information
- Rent out your car via the app

Turo is an app where you actually rent out your car for the day or for several days to customers for driving.

HyreCar is an app where you rent out your car to future Uber and Lyft drivers.

The cons to renting out your car include:

- Wear and tear
- Add extra miles
- Increased liability exposure

Just make sure you weigh the pros with the cons.

## **9. Teach Kids English**

If you know – or even somewhat know – the English language, then you can make \$500 fast just by teaching other kids English!

And the best part?

Teaching English can be done ALL online.

You can set your own hours, own curriculum, and teach right from the comfort of your own home.

## **10. Freelance Writing**

To become a freelance writer, all you will need is your laptop and an internet connection.

Freelance writers get paid for:

- Writing emails
- Writing new blog posts
- Writing sales copy for products

...and more!

One skill that I find really POWERFUL is becoming an expert email writer.

Why?

Because when you have a product (like an ebook) and you have an audience, how can you best sell?

Via Email.

That's why I recommend checking out the [Write Once Sell Twice course](#).

When you've built up a loyal email list, you could make thousands of dollars from sending 1 email!

## **11. Become an Affiliate Marketer**

If you want to make \$500 from home, then consider becoming an affiliate marketer.

An affiliate marketer is someone who promotes another company's products or services.

You make money when you:

- Get link clicks
- Get email sign-ups
- Sell a product/service

The amount of money and how you make it depends on your contract.

Let me explain:

The very first week after I implemented the tips in the [Affiliate Mastery Guide](#), I made just over \$49.

Now, I make THOUSANDS per month.

Passively.

**Pro Tip:** Building a solid affiliate marketing income stream can take some time.

You can become an affiliate marketer on:

- Email
- Websites
- Social media

...It really doesn't matter WHERE you sell.

Just start, and learn as you go.

## **12. Create & Sell an Online Course**

One of my favorite side hustles is creating and selling courses.

Let me explain:

You could get paid by selling your expertise.

Your expertise can literally be in ANYTHING like:

- Finance
- Gardening
- Photography
- Computer coding
- Web development
- Social media management

The list honestly goes on and on and on...

If you know a topic, then start your own account on [Teachable](#).

Teachable is THE top online platform for teachers to build their courses.

Here's what you're charged:

- A flat fee (monthly or annual)
- Transaction fees on sales

Most transaction fees are 5%.

The rest of the profit, you get to keep.

Seriously, Teachable is one of the best apps that pays you real money.

I've seen creators sell their courses for up to \$5,000.

That's not a type-o.

Just ONE sale and you've made the average American monthly income.

This is a no-brainer.

The only downside is that you will have to promote the course yourself.

## **13. Babysit**

While babysitting is often a job for teenagers, anyone can take this up.

In fact, I know many parents who would prefer to have an adult babysit their kids over teenagers!

If you like working with kids (or even have kids of your own), then check out [Care.com](https://www.care.com).

Care.com is a website that helps job seekers find clients.

Not into babysitting and the whole kid thing?

No problem.

Care.com can also help you find gigs for:

- Tutoring
- Elder care
- Pet sitting
- House cleaning

And on average, you can charge about \$20 per hour for your services.

## **14. Housesit**

Do you want to make money, but DON'T want to work with people?

If yes, then housesitting might be right for you.

Check out [Care.com](https://www.care.com), which can help connect you with people who are looking for housesitters.

And I kid you not – in Miami, housesitters make around \$5,500 per month (or about \$66,000 per YEAR).

For house sitting.

No joke.

Here's another trick:

When you've landed your housesitting gig, make EXTRA cash by learning affiliate marketing for example.

Then you make TWICE the amount of money!

## **15. Use Your Car as an Advertising Billboard**

Another great side hustle is wrapping your car with advertisements.

You can:

- Wrap your car in an advertisement
- Get paid for the time the ad is on your car

Generally, you don't even have to change your driving route or anything.

Just drive as you do.

There are generally 2 campaign types:

- Partial campaign zone coverage
- Full campaign zone coverage

You'll get paid more if you have the full campaign zone coverage.

And once the ad campaign ends, your wrap will also be removed from your car.

## 16. Flip Items

While it might not be everyone's dream, you could start flipping items.

So, if you love working with your hands, read this.

All you have to do is check out the free section on social media platforms like:

- Craigslist
- Nextdoor
- Facebook Marketplace

Maybe you'll find something that you think can be flipped!

Don't know where to start?

Then check out the [Trash to Cash Guide](#), which will give you the EXACT step-by-step guide to building a flipping empire.

## **17. Sell Crafts Online**

If you want a quick and easy side hustle, then consider selling your own crafts online!

The best part?

You get to work FROM HOME.

I would join Etsy, which is an online platform that connects you with customers worldwide.

You can sell virtually anything on Etsy, like:

- Jewelry
- Handmade crafts
- Customized clothing
- Customized pet wear

You'll probably find that selling on Etsy can be a little more cyclical.

That means you can expect to make more during the holiday season than in summer time, for example.

## **18. Become a YouTube Editor**

If you want to learn make BANK, then consider becoming a YouTube Editor.

In fact, one of my good friends is a well-known YouTube editor and he charges anywhere between \$500 to \$1,000 PER HOUR for a consultation.

Of course, it took him some time to build the reputation he has.

But trust me, it's worth it.

Even if you're just beginning your YouTube editing career, you can probably make \$500 to \$2,000 per month.

And in 2023, over 54% of active social media users in the WORLD access YouTube.

However, It's probably going to take you a few months to build trust with your audience.

But when you do, you can make A LOT of money on YouTube.

## **18. Do Handyman Work**

If you want to learn make hundreds of dollars a day, then consider doing handyman work!

The best part is you don't even have to advertise your own services.

If you join the Thumbtack app, it will do it all for you.

Thumbtack is a handyman app where you can advertise services like:

- House cleaning
- Appliance repair
- Personal trainers
- Lawn care services
- Home improvement
- Bathroom remodeling

...And the list goes on.

**Pro Tip:** The key on Thumbtack is requesting reviews from your happy customers.

Thumbtack will match you with a service that a customer is looking for, in your area.

The customer will likely then send you a quote request, to which you should respond immediately.

Once you provide a quote, it's up to the customer to decide if they'd like to proceed.

## 19. Pick Up Freelance Gigs

Another great side hustle is freelance gigs!

The 2020's are known as the "Gig Economy" after all!

Check out apps like Fiverr, which is a marketplace for freelancers.

On Fiverr, you can promote your gig work like:

- Video editing
- Graphic design
- Digital marketing
- Web development
- Social media marketing

Don't know one of these skills?

Learn a skill using Udemy!

Depending on your skill set and your experience level, you could make \$500 an hour!

**Pro Tip:** To get the biggest bang for your buck, accept only big projects with a high payout.

And always make sure to get good reviews from your customers!

## 20. Get Paid to Take Online Surveys

This side hustle won't make you rich.

But it's a step in the right direction.

Believe me when I say that companies are willing to pay money for market research.

That's where online surveys come into play.

Online sites pay you money for:

- Surveys
- Feedback
- Shopping online
- Watching videos
- Testing new products

That's because these companies want to gather data on customer demographics.

If you want to get paid to take surveys online then check out:

- [YSense](#)
- [MyPoints](#)
- [Swagbucks](#)
- [Zap Surveys](#)
- [Inbox Dollars](#)

- [Survey Junkie](#)

And you know what?

You get to take ALL of these surveys right from the comfort of your HOME.

**Pro Tip:** To get the biggest bang for your buck, sign up to ALL survey websites.

That's because each website will probably have different surveys, so you have more opportunities to earn more money.

## 21. Get Paid to Play Online Games

Who likes playing online games?

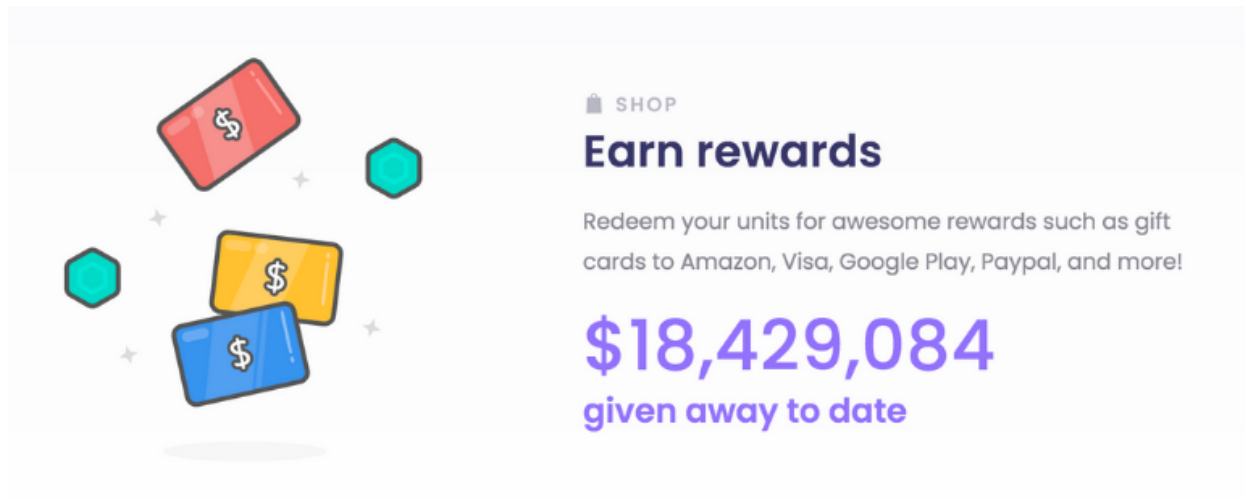

I sure do.

So when I found out that you can make actual money by playing games through [Mistplay](#) and [Cashyy](#), I jumped on the bandwagon.

Mistplay, for example, has 5+ million downloads.

All you do is download the app, give Mistplay access to monitor your usage, and start playing games.

As you play (and progress) in the games you play, Mistplay will reward you with points.

The points then can be exchanged for:

- Visa gift cards
- Amazon gift cards

You could even make money by referring friends.

## 22. Get Paid to Share Your Internet

One easy way to make money quick is by sharing your internet.

Believe it or not, sharing your internet is:

- Easy
- Passive

- Lucrative

How can you start?

Start by checking out the [Pawns App](#).

The Pawns App is a passive income app that allows people from all over the world to share their internet connection with global companies.

All you do is download the app and then allow the app to share your internet.

You have total control over the number of unique IPs that can access your internet and for how long.

The most amount of money you can make per month is around \$96.

So, to make \$500, you'll probably need about 5 or 6 months of internet sharing.

But why not?

It's COMPLETELY passive!

Is it safe, you might ask?

And the answer is yes.

Pawns does not release any of your personal information.

Any searches or other data on your network is completely encrypted and is not shared with those who are using your internet connection.

Sharing your internet might be useful for companies to:

- Test new markets
- Research new data
- Expand in new geographic areas

I'm a fan because it's passive income that can be earned monthly.

## **23. Make Money in the Stock Market**

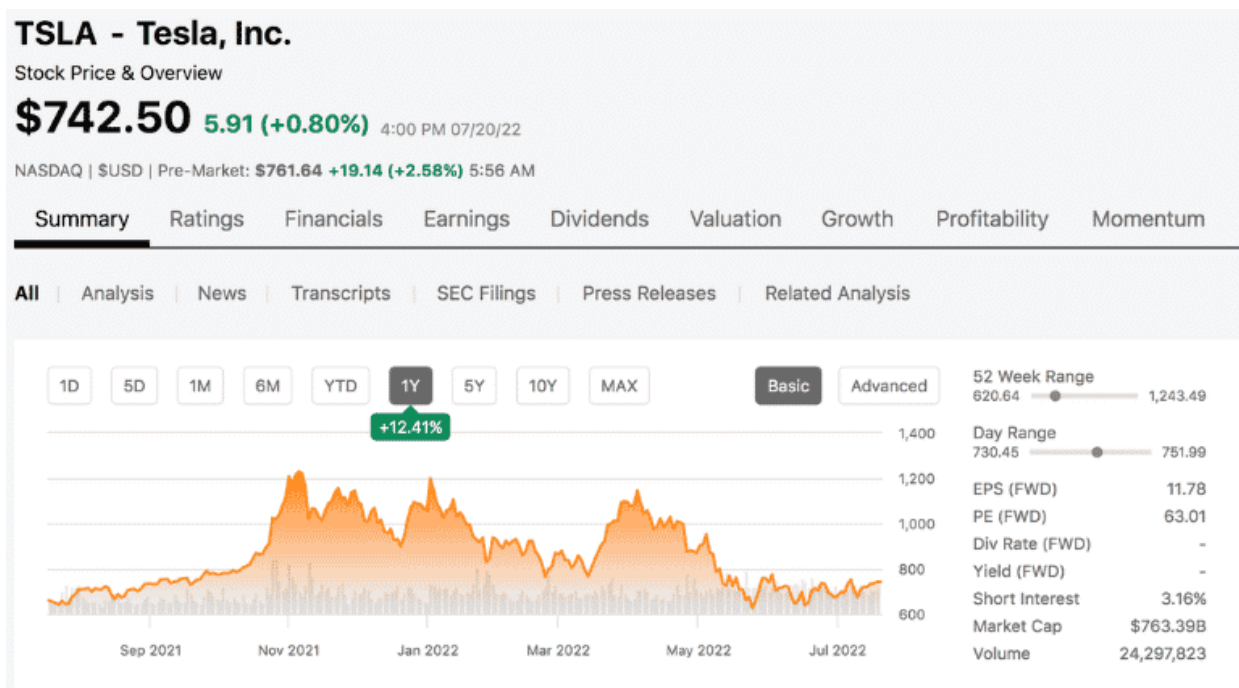

The first step to making money in the stock market is learning how to build a stock portfolio.

Each stock portfolio is different because it is based on your:

- Risk tolerance
- Investing style
- Stock preference

However, when you start tracking the markets and get advice from experts like those featured in [Seeking Alpha](#), you can make A LOT of money in the stock market.

In fact, stock market information platforms like Seeking Alpha offer plenty of qualitative and quantitative insights into THOUSANDS of different stocks and funds.

Actively tracking market data and trading based on this information is called active investing.

Active investing can be risky and volatile, but when it's done right, you can even make a quick 500 dollars in a single day!

## Closing Thoughts

When life gives you lemons, you can always make lemonade by starting a side hustle.

You can make money fast by:

- Doing odd jobs
- Selling your stuff
- Starting a side hustle
- Participating in the gig economy

While some of these money making strategies might take longer than getting a payday loan, they are always better than going into debt.

And remember:

Build up your emergency savings fund so next time, you can stop worrying about money and so you don't hustle when you face an emergency.

Your bank account will thank me later.
